F A L L 1943 P R I C E SF R U I T T R E E S A N D R O S E S

This Price List cancels all quotations or Catalog Prices on the following on account of a tremendous shortage of all Fruit Trees, Pecans and Roses (usually dug and delivered NB (Not-Balled) from Sandy soils. For years we have contracted and bought this class of Stock from Wholesale Growers who have the right soil and reasonable labor, at cheaper prices than we can grow them in our rich heavy soil, that is suitable only for our B&B Quality types of Landscape Material.

These Growers now face shortages of labor and they are charging us several times more for their Fruit, and Pecan Trees and Roses than we have ever paid before. On account of these conditions, we have had to change our Prices accordingly to this new List. Early orders will be booked in routine. We advise ordering now while stock is available.

Fruit Bearing Trees- Oranges, Kumquats, Lemons, Grapefruit, Guavas, Elaeagnus, Loquats, Feijoa, Mayhaws, Podocarpus, Quince and Pindo Palms, and other stock B&B remain the same prices as published in our General Catalog "BEAUTY OUT-OF-DOORS" until further notice.
